

Gerd Berger

This technical drawing shows a cross-sectional view of a mechanical assembly. A central shaft (2) passes through the center of the device. At the top, there is a complex assembly including a valve or actuator (15) and a housing (13.1, 13.3). A piston or plunger (16) is located at the top of the shaft, with an upward arrow indicating its movement. Below this, there is a series of seals and rings (13.2, 13.4, 13.5, 13.6, 13.7, 13.8). The main body of the device consists of several concentric rings and a central shaft section (1.1, 1.2, 1.4). A lower piston or plunger (3) is also shown, with an upward arrow indicating its movement. The bottom of the device features a base (1) and a lower shaft section (2). Various other components are labeled with numbers 4, 5, 6, 6.1, 7, 8, 9, 10, 10.1, 11, 12, and 14.
